OFFICE OF THE CHIEF ELECTRICAL ENGINEER
TO THE GOVT. OF MYSORE

Bangalore 19th May 192 6

D. O. No. 888

Dear Mr. Chandy,

I have been getting together the data for the power consumption by hospitals and find that the power consumed by hospitals is as follows:-

		Units	Amounts to
1.	In Bangalore City	4000	Rs.1,000
2.	In C & M. Station	6000	Rs.1,500
3.	In Mysore City	2100	Rs. 525
4.	In K.G.F.	1700	Rs. 425

This is the monthly consumption. The annual consumption is such that our revenue amounts to Rs.41,400.

I discussed this question with the Dewan yesterday and I suggested to him that we apply the G.O.No.E.D.S.2186-202 dated 16/22nd December 1925 to the Hospitals excepting those in the C & M.Station, which would reduce the charges against the Hospitals very materially. The rate per unit would be reduced from 4 annas to 3 annas and no minimum would be charged. This would result in a reduction of 25% per annum in the charges against the Hospitals.

I would recommend that the above Government Orders be made to apply to Hospitals outside the C & M. Station; No regular Government Orders need issue, only an executive order would be all that is necessary and I can apply the reduced rates. If, later on, it is found desirable to still further reduce the charges, another executive order could issue. I would not like to apply a further reduction other than the above in any one year. If it is

intended to relieve the hospitals of all charges for electric lighting, it would be better if itis done in steps gradually from year to year, as free lighting to hospitals outside the C & M. Station will amount to a reduction of about Rs.23,000 per year in the Department's revenue.

Yours sincerely,

SGF-PRN.

Bangalore,

May 5, 1926.

Dear Mr.Forbes,

The Dewan noticed that the rooms in which patients are kept in the Victoria Hospital are not well lighted and the reason assigned is the cost of electric charges.

As the charge to Government during nights is, I believe, only nominal, I request that you will kindly prepare and send a note for submission to Dewan showing what the actual charge is of electricity as supplied to the Hospitals for last official or calendar year, what the charge booked to the Medical Department is, and whether there is any objection to supplying current free to Hospitals, subject to any restrictions against wastage that you may suggest.

Yours sincerely,

Sd. K. Chandy.
